Supervisor: Dr Somnath Basu, IISER Kolkata
- Studied topics in algebraic topology. Explored tilings of the hyperbolic plane as covering spaces of genus 2 and above surfaces.
- July 2021 **The Stone-Weierstrass Theorem**
Supervisor: Dr Somnath Basu, IISER Kolkata
- Studied topics in introductory group theory, analysis, and topology. Presented a generously illustrated proof of the Stone-Weierstrass theorem ([notes](#), [presentation](#)).

April 2020 **Age stratified SIQR model for the COVID-19 pandemic**

Supervisor: Prof. Ranjit Kumar Upadhyay, IIT Dhanbad

Studied the basic SIQR compartmental model in epidemiology, in the context of the emerging COVID-19 pandemic. Modified this model by subdividing each compartment into age groups, with varying degrees of interaction amongst each other. Applied this model (using numerical simulations in python) to understand the different trends in infection rates/mortality in countries with different age structures in their population.
